### BIO

Iconoclastic singer/songwriter Desmond Grundy performs solo, in the occasional duo and with a revolving cast of musicians in the studio and in the Grundy Band. As an underage and impressionable young musician in the 70s, Desmond performed with seasoned unknowns from Hamilton, Ontario playing legion halls and clubs throughout the region. After studying drums, guitar, piano and musical theory at the Royal Conservatory of Music and Mohawk College, and a successful theatre and business career, he has returned to his musical roots with an eclectic assortment of original songs and cover tunes done his way. He has a unique voice sometimes reminiscent of Lou Reed, distinctly edgy.

### **The ultimate rock and country power duo:**

Started in 2007, *Grundy and Finn* are playing to discerning audiences throughout the GTA and beyond. Their show is an eclectic melange of gritty toe-tapping favourites and melodic, fearless originals delivered with spirit and professionalism to suit every venue. Robert Finn is a consummate drummer and bass-player. His voice, especially when presented in harmony with that of his partner, puts the sound of *Grundy and Finn* over the top. Their setup is simple, one guitar (acoustic and electric) and one bass guitar plus two voices. With both men singing their socks off this unbeatable combination of instruments is sure to make all the regulars thirst for more and the walk-ins wonder why they haven't heard of these guys before. Three sets of 45 minutes each is enough to take any lonely heart, party dude, cougar and couple through the night and into the early morning. It is a show unlike any other and not to be missed.
